

## BATTLE

Is Expected on Buzeu River  
Where Rumanians May  
Establish New Line

## SITUATION IS NOT CLEAR

Official Reports Are Silent  
As to Developments Since  
Evacuation of Bucharest  
—Germany Reports Cap-  
ture of 8,000 Troops Cut  
Off From Rest of Retreat-  
ing Rumanians

Events on the European battle-  
fields are summarized from reports  
from capitals to the Associated Press  
as follows:

The rounding up of Rumanian  
troops is being continued by the Teu-  
tonic forces. The latest statement  
by the German war office announces  
the capture of 8,000 additional pris-  
oners, together with 26 guns.

Apparently this body of men,  
with its artillery, had been trapped  
in western Wallachia by the speedy  
advance of the Teutons, as the state-  
ment mentions the capture as tak-  
ing place on the Alt river, a stream  
long since passed by the invading  
armies on their way to Bucharest.

The situation north and east of  
Bucharest, following the surrender of  
the capital, has not yet been clarified  
by the official reports. Seemingly  
the Rumanians and such Russian  
troops as were aiding them are still  
on the retreat northward, rapidly  
leaving the remainder of south-  
eastern Wallachia in the hands of  
Field Marshal Von Mackensen and  
military commentators for the most  
part do not expect a stand to be  
made by the Rumanians before the  
line of the Buzeu river is reached.  
This line virtually closes the neck of  
the province of Moldavia, running  
eastward from the Hungarian fron-  
tier to Galatz, on the lower Danube,  
near the Bessarabian border. It is  
regarded as a strong defensive line  
and one easily susceptible of rein-  
forcement from Russian sources.

On the Franco-Belgian front the  
only operation of note has been in  
the Verdun region, where the Ger-  
mans yesterday claimed the capture  
of the summit of Hill 304, west of  
the Meuse. Today Paris announces  
that the Germans have been driven  
from "a section of the trenches on  
the eastern slopes of Hill 304,"  
which they had occupied.

In Macedonia the Bulgarians are  
violently contesting the efforts of  
the Serbians to make further ad-  
vances east of Monastir. Paris re-  
ports heavy counter-attacks on the  
Serbian positions in the Stravina re-  
gion, east of the Cerna, on Wednes-  
day night, which are declared to have  
been sharply repulsed.

The French navy has lost a bat-  
tleship, the 12,750 ton Suffren,  
which left port on Nov. 24 for Lor-  
ient, a French naval station in Brit-  
tany, and has not since been heard  
from. She is considered by the  
French admiralty to have been lost  
with all on board. Her usual com-  
plement was 730 men.

LONDON EDITOR  
OPPOSES BALFOUR  
AS FOREIGN SECY.

London, Dec. 8.—The Evening  
News, one of the strongest support-  
ers of Premier Lloyd George, pub-  
lishes prominently a protest against  
the suggestion that A. J. Balfour be  
appointed foreign secretary and  
Lord Robert Cecil retained as par-  
liamentary under secretary for  
foreign affairs. It says:

"The great enthusiasm with which  
the formation of a new government  
is received everywhere is dampened  
for the moment by the persistent  
rumor, on apparently good authority,  
that Mr. Balfour is to go to the  
foreign office. Lord Robert Cecil,  
Lord Robert's record in the  
foreign office is well known. It  
would be nothing short of disastrous  
if the man who persistently adopted  
a policy leading to the weakening of  
our blockade and then consequent  
feeding of the Germans should again  
be placed in command."

was 5 to 3.

the most likely successor to U. S.  
Attorney General Gregory, who ac-  
cording to report will resign in the  
near future. The solicitor general  
is forty-three years old and a gradu-  
ate of Washington and Lee Univer-  
sity.

## BRITISH

BLOCKADE BLAMED BY GER-  
MANS FOR NECESSITY TO  
DEPORT BELGIANS.

Declares Deportation Is Not a Hard-  
ship But a Social Necessity—  
Says Conditions Worse.

[ASSOCIATED PRESS TELEGRAM]  
Berlin, Thursday, Dec. 7, via Lon-  
don, Dec. 8.—The German govern-  
ment issued a statement today in ex-  
planation and justification of the  
transfer of Belgian laborers to Ger-  
many. It says the measure is by no  
means a hardship for the laborers but  
is a social necessity.

Owing chiefly to the British em-  
bargo against Belgium's overseas  
trade, which before the war supported  
a large part of the industrial pop-  
ulation, large numbers of Belgian  
workers are idle, the statement says  
and conditions are growing worse.  
Many families, after spending all  
their savings, have become objects  
of public charity. This state of  
things is not due, as asserted in Bel-  
gium, to German requisitions of raw  
material, it is explained, for these  
requisitions occurred as a rule only  
where factories were unable to con-  
tinue operations.

Of 1,200,000 employees engaged in  
Belgian industries before the war, 5,  
000 including 158,000 women, are  
now wholly without work, and 150,  
000 including 46,000 women, are  
partly without work, making a total  
of 655,000 persons dependent on  
public aid. In addition to these  
there are 293,000 wives and 612,000  
children of men without work, so  
that 1,560,000 persons, or one-fifth  
of the total Belgian population re-  
quire assistance.

These masses of idle people, the  
statement says, are degenerating  
and drunkenness and social depravity  
are resulting.

Before compulsory transport, how-  
ever, very idle person is offered the  
opportunity voluntarily to accept  
profitable work on contract, and  
compulsion is resorted to only where  
the laborer stubbornly refuses.

Workmen coming to Germany are  
placed on the same footing as Ger-  
mans and are earning higher wages  
than they ever received in Belgium.  
Steps have been taken to send part  
of their earnings to their families in  
Belgium.

APOPLEXY TAKES  
JAMES M. PRIEST;  
DIED WHILE IN BED

Retiring in his usual robust  
health Thursday night, and with  
never a premonition of death, James  
M. Priest, a farm laborer, aged 59,  
was a corpse at midnight.

Mr. Priest was employed upon the  
farm of William Lees south of Cen-  
tral City, and he and his employer  
slept in the same room. Near 12  
o'clock Priest suddenly ceased snor-  
ing, and after a minute or two Mr.  
Lees went over to his bed, and found  
that the man was dead.

The body was removed to the  
Crisp Brothers undertaking estab-  
lishment after the coroner, Dr. W. L.  
Jackson had given his opinion that  
death was the result of a stroke of  
apoplexy.

The deceased leaves two sons, A.  
E. Priest, 160 West Orchard street  
to whose home the body will be re-  
moved tonight, and where the fun-  
eral services will be held sometime  
Monday, the hour to be announced  
later. Real Priest, of Rose street  
two daughters, Mrs. Aida Mulligan,  
19 South Sixth street and Miss Eva  
Priest who lives with Mrs. Mulligan.

gress.

## FURTHER

Exchange of Notes on U-  
Boat Question Now Seems  
Probable

## SOME POINTS NOT CLEAR

Berlin and Washington Ap-  
parently Interpret Inter-  
national Law Differently  
In Regard to Submarine  
Attacks—Germany Offers  
to Make Amends if Pledge  
Was Broken

[ASSOCIATED PRESS TELEGRAM]  
Washington, Dec. 8.—A new note  
to Germany on the general sub-  
marine situation appears to be  
among the possibilities which may  
come out of the latest activities of  
the undersea boats.

It decided upon, such a note  
would be for the purpose of clearing  
up what appear to be differences of  
interpretation in Washington and  
Berlin as to Germany's "pledges in  
the Sussex case covered, especially  
as to armed ships.

Secretary Lansing said today no  
final course of action had been  
agreed upon by President Wilson and  
him.

Although the state department  
has been going on the principle of  
deciding each case separately on its  
merits, it was said today that the  
number of cases had reached such  
proportions that some general ac-  
tion would be justified, although it  
was made clear that nothing had  
been determined upon.

The day's development in the sit-  
uation were:

The United States asked Great  
Britain for information to determine  
the status of the P. and O. liner  
Arabia, which a German submarine  
commander took for an armed  
transport.

Official information coming to the  
state department established that  
the British ship Marina, torpedoed  
with a loss of six Americans, was in  
no sense a transport, and was en-  
titled to the immunities of a peace-  
ful merchantman.

In both cases Germany has ex-  
pressed a willingness to offer  
amends if her pledges were broken.  
It was reiterated again today that  
the United States stands squarely on  
the position it took in the Sussex  
case. This, combined with Ger-  
man's statement that she too, hold  
to the pledges she gave in that  
case, leads officials to declare there  
seems to be some difference in inter-  
pretation.

A new note, if it should be de-  
cided to send one, would be to clear  
this up and make plain beyond ques-  
tion that the United States expects  
all merchant ships, under interna-  
tional law shall not be destroyed  
without warning or having crews  
and passengers removed to places of  
safety.

Affidavits on the sinking without  
warning of the Italian liner Palermo,  
on which state department records  
show there were 23 Americans, are  
being collected as rapidly as possi-  
ble. As yet there are no indications  
that any American lives were lost,  
but from information at hand, the  
case seems to parallel closely the  
Arabia and the Marina.

FEDERAL PROBE  
HITS PAY DIRT IN  
ELECTION FRAUDS

[ASSOCIATED PRESS TELEGRAM]  
Intimation that the federal grand  
jury inquiry into alleged election  
frauds in Cincinnati and vicinity is  
discussing evidence to support the  
charges of vote buying was given to-  
day by District Attorney Bohn when  
he declared that the investigation is  
"progressing more than satisfac-  
torily." He said: "We are making  
progress. The results are up to ex-  
pectation." The probe into alleged  
vote buying will end next week he  
believes and then will be taken up  
the inquiry into campaign fund so-  
licitations.

NEGLECT OF DUTY

[ASSOCIATED PRESS TELEGRAM]

PRESIDENT COMMUTES  
SENTENCE OF FOUR;  
RELEASED AT ONCE.

[ASSOCIATED PRESS TELEGRAM]  
Washington, Dec. 8.—President  
Wilson has commuted to expire at  
once the contempt sentences of  
Frederick Ledwith, alias James Oak-  
Hiram Stephens and Fannie Sullens,  
who at Philippi, W. Va., on April 25,  
1915, were given six months in jail  
by Federal Judge Dayton for not  
obeying an injunction of his court  
during the coal strike of several  
years ago.

They have already served prac-  
tically three months, and the Presi-  
dent without opposition from Judge  
Dayton held their punishment al-  
ready had been sufficient.

## BRITISH "TANKS" SNAPPED IN ACTION ON SOMME BATTLEFIELD

Two snapshots of British "tank" in action.

These are the first actual photographs to reach this country showing the British "tank" or caterpillar tractor on the battlefield. A photograph of a tank at rest was secured some weeks ago, but until very recently allied censors refused to permit any picture of the famous tractor in action to leave France. In the meantime, however, imaginative artists were busy showing the big machines in the midst of battle.

## PRECINCT

OFFICERS MAY BE CALLED IN  
FOR CONFERENCE WITH  
ELECTION BOARD.

Secretary of State's Letter to Deputy  
Supervisors Mailed From Colum-  
bus Today—Wants Ballots  
Preserved.

[ASSOCIATED PRESS TELEGRAM]  
Columbus, Dec. 8.—Secretary of  
State Hildebrandt today mailed let-  
ters to the 88 county boards of elec-  
tion of the state telling them to act  
under section 4520 of the election  
laws which provides that they must  
call in precinct election officers and  
interrogate them when information is  
filed with them of any irregularities  
or mistakes made in counting  
the votes.

Hildebrandt says charges have  
been made to him from many coun-  
ties of mistakes and errors and in  
some instances, of fraud, in the  
counting of the ballots at the recent  
election.

"If there is anything in the  
charges it should be known to the  
people," Hildebrandt says. "If there  
is nothing in the charges, the  
election officers should not be un-  
der suspicion."

"Were the ballots to be destroyed  
before the investigation is held, it  
would be charged that the investi-  
gation was for the purpose of only  
giving the election officers a clean  
bill of health," he added, and for  
that reason he orders the ballots  
held "until such time as a full inves-  
tigation may be made."

tion today says the canvass showed  
121,006 women opposed to suffrage  
and 12,947 in favor of suffrage.  
More than 1,000 women were neu-  
tral.

Cleveland and Columbus showed a  
larger percent in favor of suffrage  
than any of the other larger cities,  
the statement says. More neutrals  
were found in Dayton.

DROPS DEAD AS  
HE ENTERS HOME

Giles E. Smucker, 65, died unex-  
pectedly at his home 125 Hudson

o'clock. Mr. Smucker has been in  
failing health for the past three  
years but had been down street  
Thursday afternoon. After the walk  
home he was always short of breath  
and would stand resting a few min-  
utes after reaching the house. On  
Thursday evening he had stopped to  
rest just inside the door of his home  
when he dropped dead.

He was the son of Andrew Smuck-  
er of this city, and was at one time  
engaged in the tailoring business,

## CORN CROP

IN OHIO WAS 31 MILLION BUSH-  
ELS SHORT, LOWEST SINCE  
YEAR 1893.

Wheat Condition Causes Apprehen-  
sion Because of Danger of Win-  
ter Killing.

[ASSOCIATED PRESS TELEGRAM]  
Columbus, ec. 8.—The Ohio crop  
report issued by the state board of  
agriculture for today shows the corn  
crop for this year was 82,953,943  
bushels or more than 34,000,000  
bushels less than the 1915 crop. The  
area planted was more than 260,000  
acres less than last year but the  
great falling off in production was  
due to the fact that the yield was  
only 28.4 bushels to the acre as com-  
pared with 37 bushels to the acre  
last year. The total production this  
year is the lowest since 1893 when  
the crops was 77,229,446 bushels.

The condition of growing wheat as  
reported by correspondents of the  
board of agriculture is four points  
lower than last month, due to the  
lack of moisture.

"The present condition of wheat  
will make it very susceptible to win-  
ter killing, and with very unfavor-  
able winter much damage will occur  
which is likely to greatly affect the  
harvest of 1917," said Secretary  
Stanifer of the board of agriculture.

As compared with last year, a  
marked increase is shown in the  
area of clover cut for seed and the  
product of seed per acre. Apples  
show slightly more than one-third  
of a fair average crop. The average  
production of tobacco shows a de-  
crease of 18 pounds per acre with  
quality above the average.

The number of cattle being fed in  
Ohio for the market compared with  
an average is 70 per cent; number of  
sheep 67 per cent; number of hogs  
82 per cent; number of cases of hog  
cholera compared with last year 14  
per cent.

Comparisons of average prices in  
the state being paid for farm prod-  
ucts show: Wheat per bushel \$1.72  
compared with \$1.04 one year ago;  
corn 94 cents as compared with 59  
cents a year ago; oats 54 cents as  
compared with 33 cents a year ago;  
barley 93 cents as compared with 54  
cents a year ago; rye \$1.21 as com-  
pared with 85 cents a year ago;  
cloverseed \$9.75 as compared with  
\$10.72 a year ago; potatoes \$1.85 as  
compared with 70 cents a year ago;  
hay \$11.15 a ton as compared with  
\$12.42 a year ago; alfalfa \$13.11 a  
ton as compared with \$14.84 a year  
ago.

## EMBARGO

On Freight Shipments from  
West to Atlantic Coast  
Is Announced

## TO RELIEVE CONGESTION

Many Foodstuffs Included  
In Order and Pittsburgh  
and Marion, Ohio, Are  
Farthest East Points to  
Which Shipments Are Ac-  
cepted—Seaboard Yards  
Crowded

[ASSOCIATED PRESS TELEGRAM]  
Chicago, Dec. 8.—Embargo ord-  
ers, which practically bar the west  
from shipment of commodities for  
export from Atlantic ports or for  
eastern consumption went into ef-  
fect on the Pennsylvania lines and  
the Erie railroad east of Chicago to-  
day.

Two other railroads the New York  
Central lines and the Wabash order-  
ed embargoes today. The Wabash  
placed an embargo on grain ship-  
ments, and the New York Central on  
all foodstuffs except perishables and  
livestock.

The orders bar virtually every  
commodity, the usual exceptions be-  
ing made however, for perishable  
freight in transit and for United  
States government shipments. H.  
C. Snyder, assistant general freight  
agent of the Erie, explained that the  
order of his road "even applies to  
livestock to the extent that we no  
longer accept livestock from connect-  
ing lines."

No limit is set on the duration of  
the embargo, which is attributed to  
the congestion of loaded freight cars  
in the yards on the Atlantic sea-  
board.

Notice of the embargo was served  
on the connecting lines by the two  
roads some time ago. The Pennsylv-  
ania order forbids agents to accept  
freight from connecting lines, which  
is destined for points east of Pitts-  
burgh. The Erie order fixes Marion,  
Ohio as the farthest point of des-  
tination.

Staple foodstuffs, which do not re-  
quire cold storage, are forbidden by  
the embargo from going east, of the  
Pittsburgh-Marion lines. This would  
apply to potatoes, flour, beef, sugar  
and canned goods. Such commodi-  
ties as wheat, corn, building materi-  
als and manufacturing articles also  
are brought under the ban of the  
embargo orders.

Local railroad officials asserted  
that frequently cars of goods for ex-  
port have been shipped without ar-  
rangements being made for bottoms  
to carry their load to Europe and  
that as a result the tangle of freight  
cars has grown so great that eastern  
roads have found it difficult to car-  
ry on their necessary efforts of  
the roads, it was asserted to carry  
out the recent orders of the inter-  
state commerce commission to re-  
turn the cars to the western lines  
have brought the situation to a  
crisis.

POSTMASTERS ARE

riety of charges.

LEGISLATURE TO

Columbus, Dec. 8.—A democratic  
state legislative caucus will be held  
in Columbus December 28. It was  
announced today. At this caucus  
the organization of the house and  
senate will be agreed upon and patron-  
age in the hands of the general as-  
sembly will be dispensed. Friends  
of Senator Lloyd of Franklin coun-  
ty are urging him for president pro  
tempore of the senate and chairman

Mrs. R. A. Hobbs, formerly Miss Edith Smyth of Newark, is speeding across the continent from California as fast as fast trains can bring her in an endeavor to reach the bedside of her mother, Mrs. J. R. Smyth, before she passes away.

Mrs. Smyth, wife of the Pennsylvania yardmaster, residing in 449 East Main street was stricken with apoplexy on Sunday and her condition has become so extremely critical that she is just living today and that is all.

Mrs. Hobbs is expected to reach Newark this evening and everything known to medical science is being done to sustain the life of Mrs. Smyth.

## Plan Prosecutions Against Persons Holding Up Prices

(Associated Press Telegram)

Washington, Dec. 8.—The federal investigation into the high cost of living reached a stage today where officials turned their attention to the form which prosecutions if undertaken should assume.

The subject under immediate consideration was said to be the method of proceeding against coal speculators whose activities are believed to have contributed largely to the recent advance.

The situation was discussed at the meeting of the cabinet.

In congress the house commerce committee decided to defer action on bills and resolutions relative to the subject until after the holidays.

The interstate commission began preparation of information relating to its recent investigation of car shortages which will be available for use in the food inquiry. Officials believe there is close relation between the car shortage and price advances, not only with respect to coal but with foodstuffs as well.

Reports to the department of justice are said to indicate the possibility of collusion among men having large influence in the movement of freight cars and speculators with a view to diverting cars from their normal channels and advancing prices of products. It was said authoritatively that these reports did not involve the heads of the railroad companies under investigation.

## The Christmas Shoppers

See the Christmas shoppers shopping. See them round the counters hopping. Hardly popping, Gayly popping

Here and there and everywhere, Picking bargains up and dropping, Woolly lambs with ears a-flopping, Dolls exceeding large and whopping, Toys that last and games that tear.

See them rush, their foreheads mopping, As they hurry on their shopping, Buying books for Tom and Willie, Buying things exceeding silly, Things that no one has a use for, Things that father must "produce" for:

With their endless lists clutched tightly, So that they may purchase rightly. See them! Watch them, hopping, Flipping, flopping, Never stopping, Till they're dropping, Worn with shopping, And go homeward, worn and weary, With a sorry sigh, "Oh, dear, I forgot to buy a present For my cousin's aunt—that's pleasant!

And I fear I made mistake In those gloves for Uncle Jake. Praps a larger size he'll take! I'll be happy when it's through, For I'm tired out. Aren't you?" Oh, the shoppers, Christmas shoppers!

How they come financial croppers, Spending money that they need! Do they like it? Yes, indeed! For it comes but once a year, And they revel while it's here. —Paul West in New York World.

## MAY YET HAVE ARCADE TO THE MARKET HOUSE

The South Park place arcade which is to run into the new market house has long been a bone of contention—whether it is to be or not to be seems to be the eternal question.

When the plan was first determined upon the Rutledge store advertised a big discount sale in order to remodel the room.

After the work had started it was decided to abandon the Arcade plan, O. C. Jones owner of the building occupied by the Great Western on the opposite side of the alley, finding it inconvenient to remodel at that time. Mr. Rutledge then planned to improve his building but to build up a solid wall instead of the glass front to face the Arcade.

The two other owners then decided they would be an Arcade, and again Mr. Rutledge to accommodate them switched to the glass display windows. Eventually the store was completed and hundreds of feet of floor space was sacrificed to the display windows on the side, but the Arcade never materialized. In the past few months despairing of it becoming a reality and needing the floor space, the Rutledge company walked up the windows, and succeeded the side of the building.

Then came the sequel to the story, Workmen commenced Monday to install the "false work" on the Great Western building with a view of roofing the Arcade. Again the dream of the Arcade seems possible of being a reality.

## Says Simple Remedy Prolonged His Life

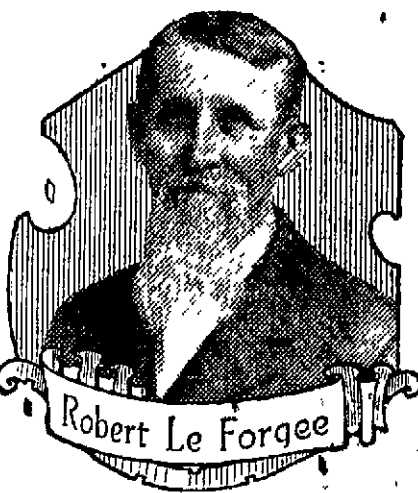

Dr. Caldwell's Syrup Pepsin Effective as a Remedy for Constipation.

Among older people the various organs of the body have a tendency to slow up and weaken, and this is usually first manifest in a pronounced inactivity of the bowels.

Good health is dependent on regularity in this important function; whenever there is the slightest indication of constipation a mild laxative should be taken to relieve the congestion and dispose of the accumulated waste. Cathartics or purgatives should not be employed, however; these are too violent in action and their effect is only temporary.

A mild laxative such as the combination of simple laxative herbs with pepsin, known as Dr. Caldwell's Syrup Pepsin, is the ideal remedy. It is gentle in its action, bringing relief in an easy, natural manner, without griping or other pain or discomfort, is pleasant to the taste, and can be obtained in any drug store.

Mr. Robert LeForgee, 918 Kirkwood Boulevard, Davenport, Iowa, says he has always had a bottle of Dr. Caldwell's Syrup Pepsin in the house for the past eighteen years, and that by using it occasionally as the need arises, and in this way keeping his health good, it has pro-

Robert LeForgee

longed his life, and brought ease and comfort.

Dr. Caldwell's Syrup Pepsin is sold by druggists everywhere, and costs only fifty cents a bottle. To avoid imitations and ineffective substitutes be sure to get Dr. Caldwell's Syrup Pepsin. See that a facsimile of Dr. Caldwell's signature and his portrait appear on the yellow carton in which the bottle is packed. A trial bottle, free of charge, can be obtained by writing to Dr. W. B. Caldwell, 455 Washington St., Monticello, Illinois.

## POLICE STOPPED A FUR PEDDLER; NOT REAL THING

The police this morning put lid on a fur peddler giving the name of G. Miller, who has been selling furs here for the past several days, at the low price of \$15 per set. A misrepresentation to one of his woman customers led to a police investigation and a fur expert called in to examine the goods.

"If he can get away with it, he's got a pretty good graft," the expert told the police.

The woman's money was returned by the agent and he was stopped selling until he secured a license. The furs were made of rabbit hides and according to the expert could be bought for \$1.

The Advocate deeply regrets the part it unknowingly played in this scheme, by publishing an advertisement in its want col. concerning the sale of furs at 28 West Locust street. The "ad" as submitted gave the impression that the furs were for sale by a Newark party, instead of a traveling peddler.

## MEMBERSHIP

OF CHAMBER OF COMMERCE INCREASED TO 607 BY CAMPAIGN UNDER J. S. ELLIOTT.

Team Under Captain S. E. Alban Wins Contest and Will be Guests at Dinner by Capt. Davis' Team.

At one of the most enthusiastic meetings since the organization of the Members and Finance committee of the Chamber of Commerce, Thursday night, 13 applications for membership were brought in and recommended to the board of directors for election.

The Chamber now has 607 memberships. During the campaign which started October 5, the membership was increased from 555 to 607, a gain of 42 through the devoted efforts of Chairman J. S. Elliott's "Minute Men."

The score by points stood, Captain S. E. Alban's team 774, Captain R. I. Davis' team 632. The prize, a dinner, will be given the winners by the losers right after the Christmas holidays and it promises to be a very interesting event.

Last spring when the Chamber of Commerce was organized through an intensive campaign and 555 members at \$25 a year signed for three years, were obtained, it was felt that Newark had one of the largest memberships of any city of its size in Ohio, on the same basis as similar organizations in Cincinnati, Columbus, Toledo, Youngstown and Canton, but there remained to be added to the Chamber a number of very desirable prospects and the Membership committee was created. Its purpose was two-fold—to gain new members and to awaken interest among old members who failed to attend meetings and were not in touch with the great amount of work being done by the six bureaus.

The committee will continue its work and plans to further increase its efficiency are being thrashed out. The members of the committee were highly praised by President. Beggs for their devotion and their remarkable application. He said that if the Chamber had 100 more men who gave of their time and their money as freely for the good of Newark as they have done there would be no limit to the good that could be accomplished.

On account of the holiday season, the committee will cancel its weekly meeting until January 4, 1917. The members of the two teams that did such splendid work were: S. E. Alban (captain) J. R. Speck, K. J. Dickerson, W. C. Hall, A. S. Stephenson, F. S. Horner, T. E. Adams, William Young, W. C. Kuster, R. I. Davis (captain) Clay Vanvorhis, F. C. Morrison, George Upson, G. G. Barber, W. W. Gard, W. J. Thompson, C. E. McDaniel, R. A. Hutchinson.

## APPELLATE COURT AFFIRMS DECISION OF JUDGE FULTON

The Court of Appeals has announced its decision in the case of the Board of Education of Licking Township, Licking County, vs. the Board of Education of Thorn Township, Perry County.

This suit was brought some months since by the Board of Thorn Township to recover from the Licking County Board the cost of tuition furnished the Vanatta children living in Licking Township, but who attended the school in Thorn Township.

Upon the trial of the case to Judge Thomas B. Fulton in the Common Pleas Court, Judge Fulton found in favor of the township Board.

In the written opinion filed by the Court of Appeals with Clerk Horton that court also finds in favor of Thorn Township and use, in their opinion, this language:

"Without reciting the respective claims of the plaintiff and defendant set out in the pleadings, it will be sufficient to state that we have read the same in connection with the evidence embraced in the bill of exceptions, and we have also read and examined the opinion of the trial judge in the case, treating as it does of the several issues raised by the pleadings and argued by counsel, and without attempting to add to or enlarge upon the views therein expressed, and approving the conclusion therein reached as to the liability of the plaintiff in error to the defendant in error for said tuition, we adopt the opinion and judgment of the Court of Common Pleas as the opinion and judgment of this court, and it follows that the judgment of the said Court of Common Pleas will be affirmed."

## YOU WANT PINK CHEEKS

Every woman wants pink cheeks. They mean not only beauty but health. Then put the color in your cheeks, not on them. The glow of health is the red of healthy blood showing through translucent skin. It is impossible without rich, red blood.

When a girl's color fades and she looks debilitated, is short of breath, when her heart palpitates after every slight exertion and she has pains in various parts of the body she needs Dr. Williams' Pink Pills for Pale People. They are the remedy best suited to restore the blood, bring brightness to the eyes and put color in the cheeks and lips.

The only other treatment needed costs nothing. It is this. Give the patient plenty of sunlight, moderate exercise every day, not enough to cause fatigue, and use care in the diet because the food craved is often not the best for the condition.

Two books, "Building Up the Blood" and "What to Eat and How to Eat" give just the information that every mother of a growing girl needs. They are free. Write for them today to the Dr. Williams Medicine Co., Schenectady, N. Y. Your own druggist sells Dr. Williams' Pink Pills or you can send fifty cents for a full-size package.

## CO-OPERATION WITH CITY OFFICIALS IS URGED BY SPEAKER

R. E. Miles, of Columbus, Director of the Ohio Institute of Public Efficiency, Thursday night told the Membership Council and the Civic Bureau of the Chamber of Commerce "How to Keep the Public Informed on Public Business."

The attendance present included a number of city and county officials and some women who are deeply interested in civic movements. Chairman Clarence Heisey presided.

Mr. Miles for a number of years was engaged in settlement work in New York City. He was also connected with the bureau of Municipal Research of New York and Cincinnati. He now is engaged in the work of promoting efficiency in the various departments of municipal governments and has been a student for years of the best methods of obtaining for the tax payers the most for their money. His talk was a plain exposition of what is being done in the most progressive cities to develop leadership among citizens, to bring business and professional men to realization of their responsibility to their city and to promote educational campaigns which will enable various communities to assume the duties and permit of growth along economic lines. He brought out very clearly the need of co-operation of civic, industrial and commercial interests for the promotion of harmony and symmetrical growth of the various factors of a city.

He urged Newark to make a closer study of its opportunities. He laid particular stress on the need of citizens studying more intimately the making up of the city's annual budget and to demand after intelligent analysis of all the facts in the case, greater efficiency from public servants. He decried the tendency towards destructive criticism of public officials and pleaded for real co-operation and helpfulness on the part of citizenry to enable public officials to get the very best results for their community with the means at hand.

At the close of his talk Mr. Miles answered a number of questions. He was tendered a rising vote of thanks.

## TRINITY PARISH CLEARS DEBT BY THREE DAYS' WORK

Trinity Church is waging a campaign this week to clear off all indebtedness on the parish property. Ten thousand dollars was the goal set before the workers. Mr. E. C. Wright was appointed general chairman of the executive committee and Mr. George E. Pickup, chairman of the division committee. Soliciting teams were formed to canvass the parish.

The first day of the campaign was on Wednesday. When the workers reported that evening, a total of \$6,647.00 had been raised. On Thursday evening an additional sum of \$2,815 was reported, making a total of \$9,462.00. Today is the final day. Supper will be served to all the workers in the Parish House at 6:30 when final reports will be received. Undoubtedly the total amount will greatly exceed the sum asked for, and a jubilant meeting will follow.

The reports will be received at 7:20 this evening and members of the parish are invited to be present at that time, and join in the rejoicing festivities. All members of the congregation and their friends will be welcome at 7:20 this evening.

## Need More Rooms For Delegates to Grange Convention

At two meetings held last night in the Chamber of Commerce, urgent appeals were made to those present to cooperate with the Convention and Publicity bureau of the Chamber, in calling the attention of Newark citizens in securing accommodations for the 1,500 to 2,000 visitors to the Grange convention.

Between 75 and 100 pledge cards have been received at the Chamber and its office forces is busily engaged in listing the names of those willing to furnish lodgings for the guests, over 200 families have been contacted, and the cards are being sent into the Chamber of Commerce offices in every mail.

The finest homes in the city have been pledged for the week, showing that all Newark is displaying its civic pride in helping to make the convention a big success.

ESTABLISHED IN 1820.

Entered as Second Class Matter  
March 10, 1882 at the postoffice at  
Newark, Ohio, under the Act of March  
4, 1879.

**City Government.**

A few days ago a number of Newark citizens, many of them quite prominent in various walks of life, met to seriously and favorably discuss a commission form of government, and a charter for the city of Newark. The same arguments that have been used for years were put forward and received the endorsement of those present without a division of opinion, and no argument from those opposed, as there was none at the meetings.

But a commission form of government is subject to the same objections that might be urged against any other method, and does not possess the virtues of some. This was experienced by Des Moines, Iowa, which after giving the commission plan a fair trial is said to be ready to discard it.

When this form was first introduced it was heralded as a panacea for all municipal ills, but it is found that a FORM of government is not the essential element of civic prosperity and municipal healthfulness. Personal ability and rectitude of officials having the administration of a city's affairs in their hands are after all the prime requisites, and the trend is toward a centralization of activity, with a concomitant placing of responsibility where a dereliction can easily be detected and remedied. In consequence the trend now seems to be toward a manager plan, now used in Dayton, or the so-called "Federal plan" of which Newark's government is a variation. The present plan in vogue in Newark by which the Mayor is the central executive power, and with his two appointees, constitutes the Board of Control, is one which commends itself as a "system" of government for any municipality.

It is then up to the citizens to select the right man for Mayor, and if they do not, it is their fault, and not an inherent defect in the system. But even should a Mayor be a disappointment or failure, there are means by which the city can rectify the mistake if influential citizens would take enough interest to bring such a situation before the proper tribunal.

It seems absurd to agitate various forms for each locality and municipality. Human nature is everywhere about the same, and a system properly administered in Newark, with necessary amplifications would be equally successful in Cleveland, Columbus or Grandville.

Newark citizens should look carefully into this matter and not be carried away with the roseate possibilities urged by the advocates of the commission plan, until they have been enabled to make an intelligent decision which some time they may be called upon to do.

The new form of government in Dayton and in Springfield is said to be a complete success, but perhaps the success is more due to the men in charge than to the system. There is very little wrong with the Newark system if efficient men are chosen to administer the affairs of the city. Another system would be an improvement providing it carried with it the certainty of efficient men but after all, it's the personality of the men in charge that counts.

**The Modern Minstrel Show.**

One of the most typical forms of American entertainment has been the Negro minstrel show. The row of black faces, all with whitened eyes and reddened lips, gets our audiences going before the end man has perpetrated his fictions of professional entertainers have made their living from appealing to this public taste. Furthermore the minstrel show was never more popular as an amateur entertainment than today. This has been demonstrated here in Newark in recent years by the Elks and this fall by the Knights of Columbus with splendid entertainments. The typical minstrel show has strict forms and conventions of its own. The interlocutor must preside with all the dignity of the judicial bench. He must enunciate his words in a clear and resonant voice, must repeat his questions several times over so that the man in the most distant seat and the one with the thickest

**The Fall of Rumania.**

(Cleveland Leader.)

With the fall of Bucharest it may fairly be claimed by the spokesmen of the German government that Rumania has been beaten beyond hope of recovery. The capital was the pride of the Rumanian nation. It was guarded by fortifications of considerable strength. The Rumanian army has been sacrificed freely to beat off the invaders who were driving toward the chief city of the kingdom. It was broken before Bucharest fell.

And yet it is possible that the cost of this great triumph of German arms, aided by Austro-Hungarian, Bulgarians and Turkish forces, will prove greater than its benefits. It is certain that the powerful nations battling against the central empires have not been materially weakened by the disaster which has overwhelmed Rumania. On the other hand it is beyond question that Germany, Austria-Hungary, Bulgaria and Turkey have lost many thousands of good soldiers in crushing their newest foe.

And it is also plain that Rumania, distressed, humbled and half swallowed up by the tide of invasion, still possesses a good deal of strength. The Rumanian armies have evidently given way before their antagonists rapidly enough to escape total destruction. Many thousands of Rumanian soldiers must have fallen back toward Moldavia, the northern and eastern division of the kingdom, and they have Russia beyond for an ultimate refuge. There will be hard fighting by Rumania troops, far into the future. Witness what the Serbs are doing after the entire conquest of their country.

But the German victory in Rumania means much in many ways. It gives the pro-German sovereign of Greece the upper hand with his subjects. It may bring Greece into the war on the German side. It gives the German people fresh confidence. Their keener satisfaction with the military situation is shared by the Austrians and the Hungarians. It will put more spirit into the Turks and the Bulgars. Rumania is very fertile and productive of grain and other food. Hence the occupation of the great Wallachian plain will add materially to the resources of the central empires in respect to food supplies. Much oil will be obtainable from Rumanian wells.

Yet the determination of the greatest powers in the largest league of nations to win in the end remains unshaken. They are no more willing than before to yield on any terms of peace which might be offered by Germany. The war must go on, even more bitterly than before.

**Plucking Bird of Freedom.**

(Cleveland Plain Dealer.)

Speaker Champ Clark is turning reformer. He suggests the abolition of the house gallery and the Congressional Record. By comparison with these revolutionary proposals the speaker's former plan to annex Canada sounds innocuous.

The short session of congress which convened Monday has a great quantity of work to perform, and it expires by constitutional command on March 4. The time is brief; particularly so when one remembers that a holiday recess intervenes. And if it is found necessary to continue congressional activities after March 4 it is a new congress that must take up the task—a congress the lower branch of which is closely divided between the parties that no one knows yet whether the Republicans or the Democrats will control its organization.

There is reason, therefore, for the speaker's anxiety to see the house waste no time in this session. One of the reasons is personal; others are partisan and still others concern the efficiency with which the public business is transacted. Personal and partisan motives aside, good business sense suggests the desirability of making every hour of the session count on behalf of the public service.

But two steps neither the house nor the senate could consent to take. One is the abolition of the Record and the other the curtailment of the gallery privilege. Members still love to talk for home consumption. It is part of their stock in trade; one of the ways many of them imagine they are earning their salaries. To abolish the "oratorical" part of the congressman's job would be plucking the tail feathers from the bird of freedom. Never! No, never!

**James J. Hill Said:**

The spur of necessity is a rich heritage. The morning hours are the best hours of each day. Crown your smallest actions with the halo of earnestness. Men without land are a mob, and land without men is a wilderness. I've made my mark on the surface of the earth, and they can't wipe it out.

Truthfulness does not alone consist in telling the truth, but more often in doing it.

Men who succeed are not magicians, but you will probably find they have a capacity for hard work. If causes are created, effects must come.

Our white bread is like the lotus; no nation that once eats it will change to poorer diet. I will make wheat flour as cheap as rice for the millions of the Orient and our farmers will profit by a new demand.

**Exposing the Real Actors.**

(Ohio State Journal.)

Judge Landis is always doing something great, something apparently beyond the letter of his duty. The latest instance occurred last week at Chicago, when in the prosecution of a loan shark case, the judge, by dint of close questioning, discovered that the loan shark was supplied with money by some respectable business man. A moral gentleman in the background, whom he exposed to the public gaze. There was more in this exposure than in

the conviction of the poor shark. It called the attention of the people to investment of money in disreputable business and those partaking of the profits thereof, leaving the impression that they were as bad or worse than the dupes who were making money for them out of mean or immoral employments. There is much of this going on; and it is hoped that all courts will lift the curtain and show the actors behind the scenes. They are guiltier than the main guys.

**Suffrage Banner.**

The suffragists who unfurled a banner bearing a heckling question while President Wilson was reading his address to Congress were surprised that nothing happened. Did they expect the Capitol dome to fall in?—Pittsburgh Gazette-Times.

**Cost of Living.**

Certainly the cost of the actual necessities of life has gone up. Almost everything that we must have in the way of food and clothing is now much higher than it was a year or even a month ago. There is plenty of reason for all of this talk about the High Cost of Living. But are you quite sure that in your case it isn't the Cost of High Living that's bothering you? Are you sure you're not trying to put on airs and live beyond your means? There has been a lot of joking about the High Cost of Living and the Cost of High Living, but both are serious conditions. Which one affects you most directly?—Grand Rapids Herald.

**Real Cause of Rainfall.**

Why does rain often follow great battles? Cannonading has nothing to do with it. The belief that rain commonly follows battles antedates the invention of gunpowder. In temperate latitudes rain occurs normally, on an average, every three or four days, or, in some regions, as often every other day. The movements of troops that precede a battle are rendered difficult or impossible by wet weather and muddy roads. Hence the preliminaries of battle are carried out during intervals of fair weather. — Popular Science Monthly.

**Christmas Is Coming.** Once upon a time there was a very Popular Woman who had the ugliest parlor in the world. "These pictures," she used to say with a sad smile, "these cushions, these table covers, these throws, everything in this room, were given to me by Dear Friends, and it would hurt their feelings if I did not put all of their gifts in my parlor. Then she rearranged the purple and blue tides on the red lounge, put the yellow shaded lamp in the centre of the bright pink mat, and hung a picture of Washington Crossing the Delaware beside an oil painting (amateur) of Grapes and Pears and heaved a deep sigh.—New York Evening Sun.

### Amusements

**A NATURAL BORN SINGER.**  
That Mme. Margarete Matzenauer, the prima donna of the Metropolitan Opera House, who will appear at the Auditorium theatre, Dec. 12, on the Women's Music Club course, is a natural born singer was proven on New Year's Day in 1912, when with less than an hour's notice she sang the soprano role in Parsifal, in New York and created the sensation of the day.

Mme. Matzenauer went on the stage at the request of the director of the Metropolitan, and although she had never appeared in the role gained acclaim.

But Mme. Matzenauer's training before her Metropolitan debut had fitted her for a vast variety of parts. For seven years before coming to America she has been the leading contralto at the Prince Regenten theatre during the Wagner festivals in Munich, and during that time also she had been a guest singer at Amsterdam, Cologne, Frankfurt, Vienna, Prague, Budapest, Leipzig and Hamburg.

In America her success and popularity has been well affirmed and confirmed by the consistent way in which the Metropolitan Opera House is crowded whenever she appears. Her husband, too, Edoardo Ferrar Fontana, is a tenor of note at the Metropolitan, and also on tour.

### THE AUDITORIUM.

**Valeska Suratt.**  
The Sunday feature at The Auditorium will be Valeska Suratt in William Fox's great photo-play "Jealousy."

The schemes and plots of a woman without heart are portrayed in William Fox's newest photoplay, "Jealousy," in which Valeska Suratt plays the leading role. It is the story of a discontented woman, who tries to find happiness by forcing men to love her; but she is crushed and helpless in the end.

Anne Baxter marries Peter Martin against her will. Later she finds that the man she had loved, Roland Carney is living happily with his own wife, Agnes, and Anne decides to break up the peace and quiet of their home.

She tries first to make Roland suspicious of his wife, but her efforts in this direction meet with failure. Her direct attack, on Roland's own heart, meets with more success. She gives him a tip on the stock-market, and he follows it. But Peter has learned what his wife is doing, and he punishes her and Carney at the same time by ruining Carney.

In the end, Martin goes to Anne and tells her that he has known her tactics from the beginning. He leaves the house, as Anne falls senseless to the floor.

This feature together with Pathe weekly, full of current events, also the funny cartoons will make up a picture program that will be hard to beat.

### "The Making of Mrs. Matt."

W. G. Shelton, agent for May Robson in "The Making of Mrs. Matt," also a personal friend of Manager Pennington, is the city paying the way for Miss Robson's engagement at the Auditorium Saturday Dec. 16th. This is one of the events of the present season and no doubt Miss Robson will be greeted by capacity business, for it has been some years since she has appeared in Newark. "The Making of Mrs. Matt" from the pen of that clever writer James Forbes, has made a distinct hit in all the cities so far visited.

### A Burlesque Reformer.

Joseph K. Watson, the well-known comedian, who is the principal fun-maker with the Cherry Blossoms at the theatre next Monday mat, and night is known as the reformer of burlesque and the manner in which he won this curious appellation will no doubt interest the patrons of the Auditorium theatre and also the theatre-going public in general. During Watson's younger days he was a boot-black and news-boy in Philadelphia and during his spare moments he devoted himself to the writing of parodies on popular songs and it was while singing one of these parodies that he attracted the notice of Grace La Rue, the well-known vaudeville head-liner. She was the means of his securing his first engagement which was with one of the Sam T. Jack shows and his part of the performance was merely to sing his own parodies. Of the different characters portrayed by the members of the company, the burlesque Hebrew, especially aroused the ire of young Watson as it held the Hebrews up to a ridicule that was objectionable to their own race in particular and to all fair minded people in general.

But Watson was different from most reformers. He didn't take any steps to proclaim himself a reformer until he had other ideas to offer in place of the ones he sought to destroy. He studied the life of the Hebrew people and their history, he visited the theatres where the best of such characters were being shown and finally his plans were completed, and he was given the contract for rewriting the show for the second season and the result was an entirely new brand of comedy, a clean comedy which was sent for to the burlesque stage that time. He did away with the misfit clothes, gradually he eliminated the grotesque crepe hair make-up and today he makes his appearance on the stage with nothing more in the way of make-up than a small moustache and he promises that in time he will discard even that. Notwithstanding his radical changes he is hailed today as one of the funniest comedians on the burlesque stage, and the boy who used to write parodies between shines at his bootblack stand in Philadelphia today is recognized as one of the leading stars of the burlesque world. Seats ready now for both shows Monday.

A woman knows her heart when she is not sure of her own mind.

### New Question!

A great many people select goods to be held for Christmas presents and promise to pay for them before they are delivered. This takes the articles from our stock so that we cannot show or sell them to anyone else, makes extra work for our clerical force in holding these orders, and congests our warehouse. Sometimes the intending purchasers fail to notify us, and sometimes payment is made too late to properly prepare the goods for delivery at specified time. In cases of this kind, what rules or course of procedure would you adopt?

Consult your fathers and mothers—ask them what they would do—and when you have decided what you think would be the best solution of our question, write us, clearly and briefly, your answer. Do not use more than 150 or 200 words, write on one side of paper only; give the name of school you attend and grade, give your father's or mother's full name and address and sign your name. Answers to this week's questions must be mailed to reach us not later than Monday, December 18th.

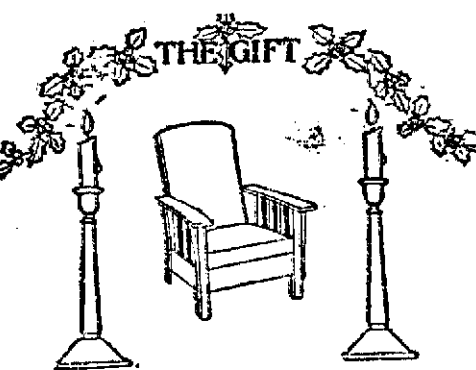

This contest is NOT open to the children of any employees.

## WOMEN OF OHIO.

Women Everywhere Endorse this "Favorite"

Cambridge, Ohio.—"I used 'Favorite Prescription' and found it an ideal woman's medicine. I was run down, dragging around, with lost ambition and strength. I used several bottles of this medicine and found it built me up nicely, and the permanent benefit was simply marvelous. I never have had to use it again. I give credit for my health to this sovereign remedy. I have given Doctor Pierce's Favorite Prescription to my daughter also."—Mrs. D. W. Nasser, 132 South 9th St., Cambridge, Ohio.

Thousands of women who are now blessed with robust health cannot understand why thousands of other women continue to worry and suffer from ailments peculiar to women when they can obtain for a trifling sum Dr. Pierce's Favorite Prescription, which will surely and quickly banish all pain, distress and misery and restore the womanly functions to perfect health.

Your mothers who preserve the charms of face and figure in spite of an increasing family and the care of growing children are always to be envied. Doctor Pierce's Favorite Prescription gives the strength and health upon which happy motherhood depends. It practically does away with the pains of maternity. It enables the mother to nourish the infant life depending on her, and enjoy the hourly happiness of watching the development of a perfectly healthy child.

## Says Hot Water Each Day Keeps the Doctor Away

Drink glass of hot water before  
breakfast to wash out the  
poisons.

Life is not merely to live, but to live well, eat well, digest well, work well, sleep well, look well. What a glorious condition to attain, and yet how very easy it is if one will only adopt the morning inside bath.

Folks who are accustomed to feel dull and heavy when they arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter.

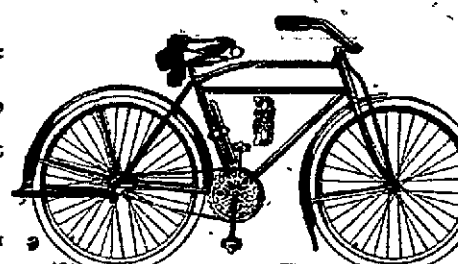

Everyone, whether ailing, sick or well, should each morning, before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast. While you are enjoying your breakfast the water and phosphate is quietly extracting the large volume of water from the food and getting ready for a thorough flushing of all the inside organs.

The millions of people who are bothered with constipation, bilious spells, stomach trouble, rheumatism, others who have sallow skins, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store which will cost very little, but is sufficient to make anyone a pronounced crank on the subject of internal sanitation.—Advertisement.

## TANNERBERG TO FEATURE COMING MAT TOURNAMENT

Holder of National A. A. U. 135 Pounds Wrestling Championship Will Be On Columbus Y. M. C. A. Team.

Harry Tannerberger, winner of the National A. A. U. wrestling championship, at Chicago several months ago, will be the feature of the Columbus Y. M. C. A. wrestling team, upon its visit to this city on the night of Thursday, December 21.

Tannerberg, holds the championship of the 135 pound boys and is the pride of the Capital City amateur wrestling fans. Young Gotch, the Columbus grappler, who meets Paul Bowser, world's middleweight champion in a finish bout the same evening, writes that his team will be the strongest that ever represented the Columbus institution.

While in Chicago Tannerberg, according to Gotch, "cleaned up every boy in the 'windy city' at his weight, before he was awarded the A. A. U. championship." "And he is better than ever now," adds Gotch.

W. E. Ellis, of the Ohio State Journal, will handle the Columbus visitors on their visit here and will secure special cars to make the trip. A large block of tickets has been asked for by the Columbus man for his party, which is expected to be the largest that ever came to Newark to witness any kind of an athletic contest.

The tournament is partly responsible for the keen interest in Columbus over the inter-city meet, but there also is a strong desire on the part of the Capital fans to see Gotch in action against Bowser. This bout, which will go to a finish best two in three falls to win, will be one that will also receive the attention of local fans.

Gotch has challenged Bowser for the past two years and now he is going to get the opportunity to show if he is a championship contender. The match will be at catch weights, but if Gotch shows enough class to warrant, the Newark man might be induced to make 158 pounds for him later in the season.

Bowser has not selected the team

which will represent Newark, but the fans can feel assured that none but the best in the city will get the call, as Paul realizes his team will be up against a tough proposition. Last year the Columbus amateurs were defeated in five out of six starts at the Auditorium, but they were wrestling without the coaching of Gotch, who was wrestling in another city.

This time when they visit Newark Gotch will be very much in evidence to coach his proteges and he predicts a different result. Bowser is more than anxious that his team makes a good showing and with Charles Metro is working hard with the boys every evening.

Medals have been ordered and will be awarded to the winners in the various classes. The tournament will undoubtedly be the biggest inter-city event held between Newark and Columbus, on account of the keen interest in the Columbus Y. M. C. A. team.

### NEWARK RING FANS WILL ATTEND THE HARVEY-DOWNEY GO.

That Newark boxing fans will be well represented at the Bryan-Downey-Johnny Harvey 122-round boxing contest, scheduled for next Monday night at the East State Street Coliseum, Columbus, is evident by the interest the coming bout has created in this city.

Already a number of tickets have been ordered and arrangements are being made for quite a crowd of boxing devotees making the trip to the Capital City. In Columbus the tickets are selling at a rapid rate and the largest crowd that ever crowded into the Coliseum is expected.

Harvey is a "miller" that the fans like to see perform. He is of the sizzling type, always wading in, and can take a great deal of punishment. Downey, too, is a slugger and a boxer, and a man whom the fans can always feel sure will give them a run for their money. A high class preliminary card will precede the main event.

### COURT REPORTS CAN'T BE BOUND; LEATHER SCARCE

Charleston, W. V., Dec. 8.—Reports of the supreme court of appeals of West Virginia cannot be made public because of a scarcity of leather with which to bind them. Attorney General A. A. Lilly, under whose direction 5,000 volumes were printed, has announced that with the consent of the court he will ask the legislature for permission to use binding other than leather which is required by law.

## BOWSER'S GREAT ENDURANCE WILL BE TESTED-MAYBE

Local Fan Believes Reed's Wind Will Not Be Sufficient to Enable Him to Worry the Champion Very Long.

"Bowser's wonderful endurance and strength will decide next Tuesday night's match at the Music Hall," a local wrestling fan said today in speaking of the coming finish grudge bout between Paul Bowser, world's middleweight champion and Ed Reed who claims Akron, as his home.

"I watched Reed work out the other evening," the fan said, "and while he appeared lightning fast on his feet, the old wind seemed to be his weakness." After a short workout Reed was blowing like an engine.

Local fans are well acquainted with Bowser's ability to go through a grueling contest without becoming winded and this fact coupled with his great endurance power, make him look like an easy winner next Tuesday night. But then so little is known of Reed's grappling ability that the fans hesitate in predicting the match being won by the Newark man in a short time.

However, it is the general opinion among supporters of the game, that if the Akron man wrestles, instead of stalling for time, the show will be short lived. Two good preliminaries have been arranged and everything is in readiness for the bout. The advance sale of tickets indicate that about 400 fans in Newark want to see the match, in which there is more at stake than the money concerned.

### REXALLS BOOKED FOR SUNDAY GAME AT WEHRLER PARK

Manager A. B. Conlon of the Fitzsimmons team announces that he has succeeded in booking the strong Rexalls team of Columbus for the last game of the season which will be played at Wehrler Park Sunday at 2:30 o'clock. Shortly after the Fitz team was organized, the Rexalls came to Newark and administered a 20-0 beating to the Newark team, but since that game the Fitz team has been strengthened by the addition of John and James McCarty and Ashby who have proved a tower of strength. Singling from this defeat, the only one suffered during the season, the Fitz team will be out for vengeance and endeavor to regain the prestige lost earlier in the season.

## HAVE DARK HAIR AND LOOK YOUNG

Don't stay gray! Nobody can tell when you darken gray, faded hair with Sage Tea and Sulphur.

Grandmother kept her hair beautifully darkened, glossy and abundant with a brew of Sage Tea and Sulphur. Whenever her hair fell out or took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect. By asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this old-time recipe, ready to use, for about 50 cents. This simple mixture can be depended upon to restore natural color and beauty to the hair.

A well-known downtown druggist says everybody uses Wyeth's Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied—it's so easy to use too. You simply dampen a comb or soft brush and draw it through your hair, taking one strand at a time. By morning the gray hair disappears; after another application or two, it is restored to its natural color and looks glossy, soft and beautiful. This preparation is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.

## SHACKLETON OFF TO RESCUE CREW IN ANTARCTICS.

(Associated Press Telegram)  
London, Dec. 8.—Sir Ernest Shackleton will sail from Dunedin, New Zealand, for Ross sea, on Dec. 16, to rescue the members of his antarctic expedition marooned there, according to Reuters' dispatch from Wellington. The explorer will take his auxiliary ship, the Aurora. The ten men whose rescue Sir Ernest will attempt are Captain Mackintosh and nine members of the crew of the Aurora, who were marooned in the neighborhood of the Ross barrier when the ship broke away in a blizzard 21 months ago. They had only a scanty supply of provisions at that time and nothing has been heard from them since.

## 50,000 OLD SOLDIERS DIE IN LAST YEAR SAYS PENSION REPORT.

Washington, Dec. 8.—Deaths among civil war veterans made large gaps in the government's pension rolls during the past year. The report of Commissioner Saltzgeber of the pension bureau, made public yesterday, shows that the names of more than 50,000 of the old soldiers passed from the list, reducing their total to 286,060, hardly more than a third of what it was 18 years ago. There was a net reduction in all pensioners of 38,000 and in the amount paid for pensions of \$6,000,000. Pensions aggregating \$159,155,000 went to 709,572 persons.

## IF KIDNEYS AND BLADDER BOTHER

Take a glass of Salts to flush out your kidneys, and neutralize irritating acids.

Kidney and bladder weakness result from uric acid, says a noted authority. The kidneys filter this acid from the blood and pass it on to the bladder where it often remains to irritate and inflame, causing a burning, scalding sensation, or setting up an irritation at the neck of the bladder, obliging you to seek relief two or three times during the night. The sufferer is in constant dread; the water passes sometimes with a scalding sensation and is very profuse; again, there is difficulty in voiding it.

Bladder weakness, most folks call it, because they can't control urination. While it is extremely annoying and sometimes very painful, this is really one of the most simple ailments to overcome. Get about four ounces of Jad Salts from your pharmacist and take a tablespoonful in a glass of water before breakfast, continue this for two or three days. This will neutralize the acids in the urine so it no longer is a source of irritation to the bladder and urinary organs which then act normally again.

Jad Salts is inexpensive, harmless, and is made from the acid of grapes and lemon juice, combined with lithia, and is used by thousands of folks who are subject to urinary disorders caused by uric acid irritation. Jad Salts is splendid for kidneys and causes no bad effects whatever.

Here you have a pleasant, effervescent lithia-water drink, which quickly relieves bladder trouble.

The shortest road to happiness is to be content where you are and with what you have.

To use a tired brain is like using tools whose edges are dull.

## Youth Accepts Favors and Then Takes French Leave

Juvenile Officer John Dwyer, today was convinced of one or two things, either that he was a poor host or had been taken into camp by a clever juvenile's confidence game.

Sunday night a young man appeared at the patrol station and poured out a heart rending tale of hard luck to those at the station. Chief of Police Sheridan and Officer

Dwyer lent willing ears to the plea and resolved to act.

The Chief took the young man to McDaniel's restaurant and ordered a good feed. Officer Dwyer volunteered to take the boy to the city prison and secure him lodging. Instead, Brother Dwyer took the wayfarer to a hotel, paid for a night's lodging, paid in advance for breakfast and departed rejoicing.

The next morning Officer Dwyer met the young man and purchased him a pair of shoes; secured a job for him at the Heisey plant and also a boarding house. Hearing words of thanks on the head of the juvenile

officer, the young man went to his work and to a "better life."

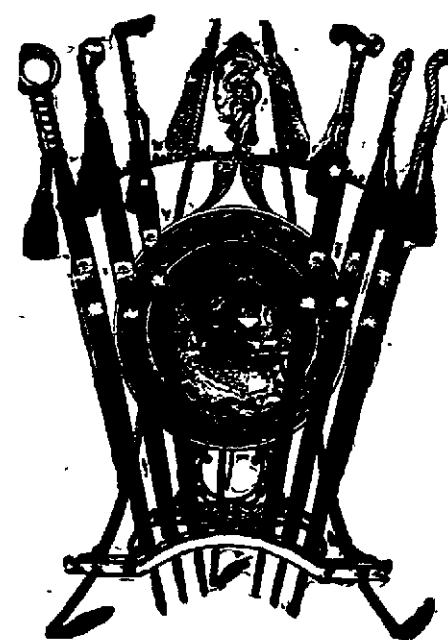

Yesterday the juvenile officer decided to find his young friend to ascertain if he could be of any further service. He found the bird had flown, after partaking of a good substantial meal at the boarding house secured by Mr. Dwyer.

# ARMY SHOOT OVER 80,000 MEN; BLAME PROSPERITY FOR IT.

(ASSOCIATED PRESS TELEGRAM)  
Washington, Dec. 8.—The regular army was 175 commissioned officers and 25,985 men short of its authorized strength June 30, last, and the next day more than 34,000 men show under the new annual report of Adjutant General McCain made public today. The sudden increase was due to the fact that the first increment of the army increase authorized in the national defense act became available July 1.

The reports say that all branches of the service on a peace footing during the present year is 138,897, men and 7,252 officers, while the actual strength on June 30 was 107,641 officers and men. It notes that high wages in civil life have prevented the army from obtaining the recruits it needs, although the largest number of recruiting stations established in many years have been engaged in the task.

The report discloses that 71,038 regulars were on duty in continental United States July 1, that number including the expeditionary force in Mexico. The report shows that a total of two officers and 34 men in the entire army were killed in action while five additional men died from wounds.

# CANAL TOLLS MAY BE INCREASED TO MEET EXPENSES

(ASSOCIATED PRESS TELEGRAM)  
Washington, Dec. 8.—Possibility of a recommendation for an increase in Panama canal tolls is seen in a statement today of canal expenses and revenues for the year ended June 30. Expenses amounted to more than double the receipts of the canal proper, though if the revenues from the Panama railroad are taken into consideration the excess of expenditures over revenues would be only 6.77 per cent, and had there been no slides during the year the revenues would have exceeded expenses.

No allowance is made, however, for a depreciation and interest fund which would require \$12,000,000 a year. Total expenses of the combined canal and railroad were \$29,321,504 and the revenues were \$27,339,888 or \$1,981,616 less than the expenses.

# 90,000 KILLED IN 20 YEARS WALKING ON RAILROADS.

(ASSOCIATED PRESS TELEGRAM)  
Baltimore, Md., Dec. 8.—More than 90,000 persons were killed and 100,000 injured during the last 20 years while trespassing on railroads, the Safety First federation convention was told today by Marcus A. Dow, general safety agent of the New York Central lines. Investigations have shown, he said, that most of the victims were of the wage earning class, living near the places where the accidents occurred.

Accidents to trespassers, over which the railroads have no control, have increased, according to Mr. Dow, until each year there are three times as many fatalities to trespassers as here are to railroad employees.

# TELEPHONE USED TO NOTIFY 12,000 OF TRAFFIC CONFERENCE.

(ASSOCIATED PRESS TELEGRAM)  
Indianapolis, Dec. 8.—About 12,000 persons were notified within a three hour period by a telephone company yesterday that the central states conference on rail and water transportation will be held in Evansville, Ind., Dec. 14 and 15. The calls started in Indianapolis and before they had been completed at least fifty men in each of 233 cities in the central west had been told by telephone operators of the conference. The speaker at the conference will include railway men, members of railway commissions and chambers of commerce and business men.

# CLOTHING WORKERS EMPOWER OFFICERS TO CALL STRIKE.

(ASSOCIATED PRESS TELEGRAM)  
New York, Dec. 8.—Employers in this city were notified today that more than 30,000 members of the Amalgamated Clothing Workers of America had empowered the officials of the Union to call a strike if the workers do not receive the 8 hour day. The vote was completed last night. Some time ago the union served an ultimatum upon the American Clothing Manufacturers' Association and its sub-contractors demanding an increase of \$2 a week in wages and a reduction on working hours. The wage increase aggregating over \$2,500,000 a year was granted but no action was taken on the question of hours.

# GRANT'S TELEGRAPHER DIES IN SOLDIER'S HOME YESTERDAY.

Utica, N. Y., December 8.—Capt. Samuel H. Beckwith, veteran telegrapher, known during the war as "Gran's shadow," as he handled all the cipher dispatches of that general and accompanied him from Fort Donaldson to the surrender of Lee, died in a soldiers' home in Hampton Roads, Va., yesterday, according to word received here. Captain Beckwith was a resident of Utica. His dispatch book was filled with copies and originals of war telegrams and his recollections of Grant, Lincoln and other great figures in the war were vivid and interesting.

She then moved to Cleveland. To the Cleveland police she denied any knowledge of the auto bandits but admitted she loved one of the men under arrest, Elmer Breze, at the same time declaring her love for her husband.

# POPE'S DECREE NOT CHANGED.

(ASSOCIATED PRESS TELEGRAM)  
New York, Dec. 8.—Owing to the fact that today is a holy day of obligation, the feast of the Immaculate Conception, Roman Catholics throughout the world are exempted from observing the rule of the church requiring abstinence from meat on Fridays. Up to about five years ago, holy days falling on Fridays carried no such exemption, but the reigning pope at the time, Pius X, issued a decree authorizing the use of meat on Fridays which fell on holy days. The present pope has not changed the ruling.

# EMPEROR SENDS CONGRATULATIONS TO BAVARIAN KING.

(ASSOCIATED PRESS TELEGRAM)  
Amsterdam, via London, Dec. 8.—An official announcement from Berlin makes public the following congratulatory telegram sent by the German emperor to the king of Bavaria respecting the fall of Bucharest.

"The beaten Rumanian army has abandoned its fortified capital. With God's assistance we have gone a great step forward. Your brave Bavarians did excellently in the mountain fighting and on the plains again gained imperishable glory. The heroic death of a brave prince and typical soldier of your lineage has been a source of inspiration to us."

The reference in the emperor's telegram to the death of a prince presumably refers to Prince Henry of Bavaria, nephew of King Louis. Prince Henry was a major in the Bavarian guards and was reported killed in battle in a wireless dispatch from Berlin on Nov. 9. The circumstances of place of his death were not given.

## MUSIC CLUB HEARS TWO-PIANO NUMBERS BY LOCAL ARTISTS

Thursday's gathering of women at Trinity parish house marked the last musical club meeting before the beginning of the season of concerts, the first to be held Dec. 12, at the Auditorium. The ladies still have 100 tickets to sell before clearing their large score to be paid the artists who are contracted for. Considering the price, \$2.50 the season, for the best music procurable, it seems the public should rally and attend.

Mrs. Harry D. Hays, president of the club, greeted the new members of the association, and consigned the program for the afternoon to Mrs. Daly, who took charge.

The numbers were all chosen for two pianos and perhaps it would have been more felicitous if the instruments had been better matched in volume and resonance. All irregularities of production could be ascribed to the contrast in instruments. Four handed work should be produced as though one person had four hands. It is to be seen that with one piano outclassing another, one pair of hands might readily produce the greater volume and singing capacity.

The first number with Mrs. Daly and Mrs. W. W. Davis in unison, contained three movements of Arensky's Suite Op. 15.

Mrs. Daly had a difficult score to render with her right hand. Mrs. Davis had intricacies of accent and very heavy bass to produce. Both acquitted themselves brilliantly. The octaves in perfect unison, the tempo marked and steady. As ever, the waltz movement was the most delightful, the polonaise most brilliant. Both players are pupils of Mrs. Clara Linnett White, and to her tutelage must most of the performers give plaudits.

The second number was executed by Miss Bessie Larkin and Miss Hagmeier.

Almost everyone is familiar with the minuet number of Bizet, which came first.

Rarely have we listened to better pianoforte playing. Both young ladies have taken post-graduate work in Cincinnati and Pittsburgh. Both are brilliant, finished performers who will do much in coming years to advance Newark's musical tone. The minuet was dainty, fine, infinitely delightful.

Miss Larkin had runs so difficult that no technique—less than hers could have answered. Miss Hagmeier rendered a flexible, easy Aria charming in effect.

The number was difficult of interpretation and the two young ladies were fine mediums of execution. Followed Neir second half. Feu Ronlunt Op 256 Thurnovoy.

Here Miss Tankin proved mistress of accent. Tempo and runs of varied range. Their ensemble work was remarkable.

Breaking the pianoforte work, which was heavy enough for trained professionals, there was given a vocal solo by Mrs. Hays, accompanied by Miss Riegger. The words, written by Cecil Fanning of Columbus, the music by Hendricks, called a Sicilian Spring. The song describes the end of the old year, the beginning of the new, interspersed with bird notes, shepherd's pipes, springing flowers, ending of course, in lovers' bliss as the culmination of spring.

Miss Riegger's accompaniment was a flowing, sweet melody, in fine time and of subdued harmony, making a perfect background for Mrs. Hays' voice. It is a fine, true, cultivated voice, well placed, well taught and intelligently handled. Mrs. Hays knows how to sing, and her songs suit her. The pleasant pictorial was punctuated by pleasing pianissimos fine climaxes.

The song proves Cecil Fanning's ability, and the writer hopes that one day he may give a concert in Newark. Mrs. Hays' very remarkable nunciation gave his words of the song full scope.

Number three on the program gave Mrs. Davis and Miss Hagmeier another opportunity to prove their valor.

This time it was Beethoven with variations by Saint-Saens. Sonorous bass, technical trills, difficult tempo marked the big number, which these two evenly matched players found worthy their utmost skill. It was long, arduous, heavy, and varied.

It was consummately done, cleanly finished, as the masters intended. To the conventional mind, is meant orthodoxy is best even in music. Mrs. Davis has great poesy in her interpretations. Miss Hagmeier much flexible sentiment and infinite tendresse.

The afternoon closed with an elucidation by Mrs. White prefacing the last number. The big Liszt symposium given by four of the ablest women players in town, at the pianos, together, Mrs. John Franklin and Miss Larkin, and Mrs. Baugher and Mrs. Daly.

Mrs. White's intellectual grasp of music is unequalled by that of any one we have ever known. Her simple elimination, her humorous and direct sifting of all but the germ necessary to explain the intention of it all, to the layman mind even, convey the reason in full. Liszt's Great Rhapsodie was written as wedding march for a Hungarian Prince. It was composed by the court violinist, and kept always in manuscript by his granddaughter, who was a Rumanian Gypsy, traveling about the country. Only within recent years have the compositions been put into commercial form and the orchestration finished. Mrs. White's story was all that was needed to make the audience happy in anticipation. She sketched the following finale:

"This military number has the power of exciting militant ideas in the minds and hearts of Hungarian peasants and is forbidden to be played in public. Hungary, so long in bondage, is always ready to uprise and Rumanian airs are best likely to incite rebellion. The great folk-song airs and Gypsy favorites, have been gathered up, combined, and woven into legitimate music by the great Franz Liszt as no other composer has done. The great

march was then played and the sharp military call was insistent throughout. It was a great contribution to the afternoon's exercises.

The club managers are regretful of a broken contract by Julia Culp, the wonderful leader singer, but the public will have more in store than they dream, in Frau Matzenauer, the Metropolitan favorite, who left Germany in the fall of 1911 to come to America. The writer heard her sing Tristan and Isolde in Berlin two months before she sailed for America. She has a great, rich, powerful tireless voice and has made good as the Metropolitan Opera House as have few artists of recent years. She is capable of the top-most effort in Wagnerian opera, and has been known to sing 4 and 5 hour roles. Her achievement is supreme and Newark has listened to no greater artist. Her advent alone, should dispose of the last 100 tickets.

**TWENTY-FIFTH ANNIVERSARY.** Mr. and Mrs. C. E. Courtier yesterday celebrated the twenty-fifth anniversary of their marriage on Sunday last.

## How to Peel Off a Weatherbeaten Face

It's really a simple matter to renovate a face soiled by dirt, wind or cold. Ordinary mercolized wax, used like cold cream, will transform the worst old complexion into one of snowy whiteness and velvet softness. It literally peels off the outer veil of surface skin, but so gently, gradually, there's no discomfort. The wornout skin comes off, not in patches, but evenly. In tiny particles, leaving no evidence of the treatment. The younger, healthier under-skin forming the new complexion is one of captivating loveliness. One ounce of mercolized wax, to be had at any drug store, is enough to remove any course, chapped, pimpled, freckled faded or sallow skin. Apply before retiring, washing it off mornings.

Many skins wrinkle easily with every wind that blows. An excellent wrinkle-remover, because it tightens the skin and strengthens relaxed muscles, is a wash lotion made as follows. Powdered saxolite, 1 oz., dissolved in witch-one-half pint This gives immediate results. Advertisement

**SAW TOOK OFF THUMB.** Frank Martin, of the box shop at the Licking factory, at Utica, got one hand too close to a saw Tuesday, and the thumb was clipped off. He saved the piece and gave it a christian burial.—Utica Herald.

## What would he give for the coffee you serve?

Like a million other women, you can serve coffee that he would give most anything to have—coffee which starts the day "right" for all.

Everyone loves the rich flavor of Arbuckles' Coffee. Of all the coffees in America today, it is by far the most popular!

One woman says: "My husband used to swallow his coffee and hurry off. Now we have Arbuckles' and you'd think it was Sunday the way he lingers over his breakfast."

Until you try Arbuckles' you will never know what a difference good coffee can make in your home.

Today there are whole towns where Arbuckles is practically the only coffee used. In one State, alone, in a year, four pounds of Arbuckles' Coffee was used for every man, woman and child in the State—four times as many pounds of coffee as the population of the State! Arbuckle Bros., New York.

### Milady's Boudoir

Have you ever seen a group of children playing at jump rope in the streets? Have you seen the color in their cheeks, the luster in their eyes, and their breathless happiness? Have you seen the sailors on an ocean liner jump rope?

Skipping rope is one of the healthiest of exercises if not carried to excess. Whether you live in a two room apartment in the city or a twelve room house in the country, it is quite possible to indulge in this childhood pleasure if you are sincerely in earnest and wish to keep your figure supple and your face girlish.

If you are an apartment house dweller there is bound to be a roof where the clothes are hung on Mondays, or perhaps a back veranda. Some apartment houses furnish laundries in the basements that are quite well ventilated or there is always the yard at the back of the house should you happen to live in the suburbs. And if you are so fortunate as to live in the country there are boundless opportunities for you to restore your youth.

Select an ordinary piece of rope, not too heavy to hurt should it strike you and not too light to swing well in the breeze. At first you may find that your many failures are breathless efforts of forgotten childhood, but you will soon conquer the skipping habit. Never jump more than twenty times before pausing for breath.

Deep breathing is of course the best of all exercises but skipping rope is a close second. It weakens the sluggish liver, strengthens the weak angles, and causes them to be-

come elastically youthful again, brings color to the sallow cheeks, and lustre to the eye, dimmed by an inactive life of middle age. Once more the pulse will bound, once more the heart will be light and laughter burst from the lips that have almost forgotten how, if you will only skip.

### Our Boys and Girls

In western Pennsylvania there is a mother who keeps a large flock of youngsters' good-tempered and well-behaved by the clever use of advertisements which are posted in the dining room when occasion demands. For instance:

Wanted—An active, energetic, able-bodied boy, aged eight, to pick up his own playthings.

Wanted—A conscientious, efficient toilet specialist to see that no member of the Harvey family neglects hair, teeth or fingernails.

Wanted—An agile, alert person, who requires no rest, to follow Dick around and pick up the clothes, books, newspapers, and other articles too numerous to mention, that he scatters over the house.

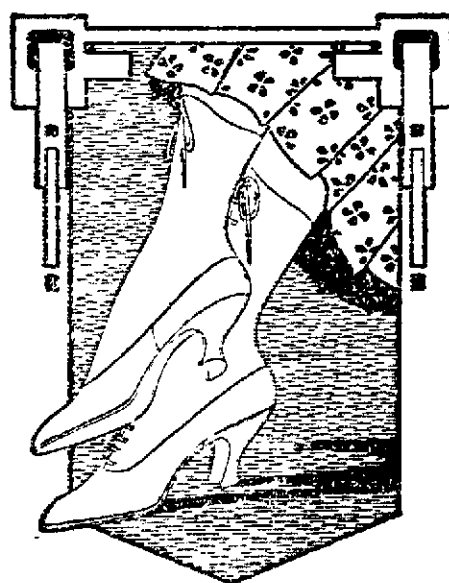

### Everyday Etiquette

"Should a gentleman's card be as large as his sister's visiting card," questioned George.

"A man's visiting card is thinner and smaller than a woman's, but it should be of a very fine quality, and neatly engraved," his stationer answered.

New York, Dec. 8.—The course of prices during today's early dealings

indicated some confusion of speculative sentiment. Gains of substantial proportions were numerous, but these were neutralized by more moderate recessions in metals, some of the utilities, equipments and such specialties as U. S. Rubber and Industrial Alcohol. Atlantic gulf and west Indies continued its rise, advancing six points to 142, a new record. U. S. Steel and allied shares like Crucible and Lackawanna steels and Republic iron were appreciably better. Reading and southern railway common and preferred advanced for the strong rally. Demand for stocks dwindled after the first half hour, the turnover of the forenoon being almost the lightest in many weeks. Steel, Reading and other leaders receded a point or more on comparatively small offerings and other investment issues were moderately reactionary. Utilities displayed marked weakness. Ohio Gas making an extreme decline of almost 12 points but recovered half its loss. Copper, Central Leather, California Petroleum, Westinghouse and Continental Can also gave way to pressure. Advance in Ajax Rubber, National Esmolding and Ice Securities excited little interest. Bonds were irregular.

Trading was more listless in the last hour, with further declines in copper and mixed gains and losses elsewhere. The closing was irregular.

## Granville

(Special to Advocate.)

Granville, O., Dec. 8.—The annual appeal for the health work of the state through the sale of the Red Cross stamps, is being made, and Granville, as usual is responding. With the money paid for these pretty seals, both children and grown upers are taught how to escape and conquer tuberculosis, nurses are sent among the poor, dispensaries and hospitals are built. The Christmas season is the accepted time for disposing of these seals as they can be used on packages, on the backs of envelopes, on all checks, bills, prescriptions and bundles, thereby sending abroad a double message of Christmas cheer and charity. They can be found in Granville at J. W. Ackley's drug store, Stewart's jewelry store, the Public Library and Buxton's grocery store.

Granville people are to be privileged to hear Hon. J. A. White, State Superintendent of the Anti-Saloon League, on Sunday morning in the Baptist church, and on Sunday evening in the Methodist church. The pulpit of the Presbyterian church will be occupied on Sunday morning by Rev. Rutledge, who also will speak on the liquor question. Make your plans to hear one or another of these speakers. The day for dallying with this question is past. Be in the van of progress instead of hanging back. Progress is sweeping you forward. Don't be a dead weight.

The King's Daughters are meeting for work this afternoon and evening and making final preparations for their Christmas bazaar to be held on December 12. Meals will be served at noon and in the evening, in their rooms, where the sale of articles will be held.

Rev. T. F. Chambers has returned from Buffalo, N. Y., where he attended a meeting of the Religious

### SHOP EARLY—YOUR GIFT TO EMPLOYEES OF NEWARK'S STORES

Dear Newark Public:— You have within YOUR power the privilege of giving the hundreds of employees of Newark's stores, postoffice, express companies and railways a splendid CHRISTMAS GIFT, by doing holiday shopping right NOW.

The Chamber of Commerce is emphasizing the HUMANITARIAN side of the question and free useful being made of the slogan, "SHOP EARLY—YOUR GIFT TO NEWARK STORE EMPLOYEES."

In addition are the arguments that there is NOW the CHOICE of the newest and FRESHEST goods, the clerks now have the TIME to give better SERVICE, the stores are not so CROWDED as they will be later, and shopping in general is more SATISFACTORY.

If well directed publicity efforts can accomplish it, more Newarkers this year than EVER before will have a thought for the holiday happiness of the store forces and make their purchases early in the SEASON, early in the WEEK, early in the DAY and — just as important — in HOME stores.

Mrs. Theodore Johnson has returned from a visit at the home of Mrs. D. D. Johnson in Parkersburg, W. Va.

Granville has been greatly annoyed by autoists who insist on speeding through the village and a number of accidents have been averted by the lowest margin. Mayor Coons has issued an order to Marshall Shipley to arrest all persons violating the ordinance governing this matter. The marshal can be depended upon to enforce the order.

Dr. L. E. Davis and Dr. J. W. Rohrer have returned from a three day visit to Dayton, where they attended the meetings of the State Dental society.

The Knights of Pythias will give a dance in their hall this evening, to which all members are cordially invited.

The following officers are to be installed by the Granville Chapter of the Eastern Star this evening: Worthy Matron, Mrs. Florence G. Robinson; Associate Matron, Mrs. Cora B. Everett; Secretary, Miss Helen Ack-

ley; Treasurer, Mrs. Esther Lake; Conductress, Mrs. Lulu S. Megaw; Associate Conductress, Mrs. Blanche A. Morrow.

In a letter to the Granville Times just issued, Mr. Frank C. Orndorff of San Diego, Cal., formerly of Granville, urges the advantages of that region of the Golden State for those who demand warm winters and cool summers. It is his opinion that this "most southwestern city in the United States is the ideal place to live."

In order to introduce Churngold oleomargarine to the housekeepers of Granville, I will sell on Saturday, Dec. 9, one pound package for 25c, 50c, 100c, 200c, 500c, 1000c.
